Art. 631020
Mod. WWS-MAL30W-Z01

EN 30 W battery operated work light

Intended use

The product is intended for private and DIY users only for the following purposes:

- For indoor lighting;
- as an external power supply for mobile devices.

Any other use is ruled out and is considered misuse.

Safety guidelines

- Make sure that liquids do not get inside the work light.**
- The work light is designed for use in dry indoors only.**
- The work light becomes warm during charging and operation. Always charge and operate the work light in a well-ventilated area.**
- Allow the work light to cool completely before transporting or storing it.**
- Do not operate the work light while charging. This will damage the battery permanently.**
- Do not point the work light directly at the eyes of people or pets.**
- Do not point the work light directly at surfaces that may be damaged by the heat.**
Maintain a recommended distance of 1 meter from the object being illuminated
- Do not drop the work light. If the housing has cracks, dispose of it immediately.**
- The bulbs of this work light cannot be replaced! When the bulb reaches the end of its service life, the entire lamp must be replaced.**

Check battery level

The level indicator shows

- When the battery is fully charged,
- When the battery is half-charged,
- When the battery is half-charged,
- When the battery is almost empty.

Charging the battery

CAUTION!

Make sure that the work light is switched off during charging and that all loads are disconnected.

1. Connect the USB-C plug on the charging cable to the slot on the work light.
2. Connect the USB-A plug on the charging cable to a suitable charger (not included in the supply) and connect the charger to the power supply.

The blue indicator flashes while charging. Once charging is complete all 4 blue indicators light up.

Switching the work light on/off

By (repeatedly) pressing the on/off switch, the following light modes can be selected:

- Pressing once = switch on main light (intense)
- Pressing two times = switch on main light (medium)
- Pressing three times = Switch on one side light
- Pressing four times = Switch on two side lights
- Pressing five times = Switch on all lights
- Pressing six times / pressing once after being in one mode for about 8 seconds = switch off

Charging UBS device(s)

CAUTION!

Do not attempt to charge the work light with its own USB output.

- Connect the USB-A plug of a charging cable (not included in the supply) to the slot on the work light.
- Connect the other end of the charging cable to the device to be charged.

Technical data

| | |
|-------------------------------|---|
| Model number: | WWS-MAL30W-Z01 |
| Light source: | 20W main light (COB) and 10W side lights (SMD) |
| Brightness: | 700-2000 lm |
| Operating/Storage conditions: | 10 to +25 °C |
| Battery voltage: | 3.7 V  |
| Battery capacity: | 4400 mAh |
| Battery type: | Lithium-Ion (Li-Ion) / Rechargeable |
| Charging time: | approx. 5-6 hours |
| USB output: | 5V  / 2.0A (Type A) |
| Base: | magnetic + internal thread for tripod (5 mm) |
| Base rotation: | 360° horizontal / 180° vertical |

Conformity declaration

The EU declaration of conformity can be requested from the service address mentioned at the back.
